Site Specific Projects Based on Requests, Feedback and Immediacy of Need

# SUMMER PROJECTS

## Upon Passage of Measure CC

### Community Budget Advisory Committee's Prioritization of Capital Funding

#### \*\*\*\*\* Guiding Questions\*\*\*\*\*

- Is it a legal requirement?
- How many students will benefit?
- Does it fit within a strategic construction plan?
- Will it minimize ongoing costs and/or increase efficiency?
- Can it be totally funded from current resources?
- How will students' learning environment be impacted?
- Will it generate any matching funding?
- Will it support our technology infrastructure to facilitate testing?
- Is it something that could be added later on?
- Could it be part of a public/private partnership?
