

**SUICIDE PREVENTION**

The Governing Board recognizes that suicide is a leading cause of death among youth and that school personnel who regularly interact with students are often in a position to recognize the risk factors and warning signs of suicide and to offer appropriate referral and/or assistance. In an effort to reduce suicidal behavior and its impact on students, families, and community, the Superintendent or designee shall develop strategies and procedures for suicide prevention, intervention, and postvention.

In planning, implementing, and evaluating the district's strategies for suicide prevention and intervention, the Superintendent or designee shall consult with school health professionals, school counselors, school psychologists, school social workers, administrators, other staff, parents/guardians, students, suicide prevention experts, local health agencies, mental health professionals, and community organizations.
