INTRODUCTION

The annual budget is the first in an ongoing series of financial reports for the 2019-20 Fiscal Year. This budget presents a frozen-in-time snapshot of where the District stands financially and where it is heading.

The Legislature is completing work on the 2019-20 State Budget. 2019-20 funding is up \$0.4 billion from the January proposal which brings the total Local Control Funding Formula (LCFF) funding up to \$81.1 billion. No one-time discretionary funding has been proposed for 19-20.

The Governor has until the end of June to sign the State Budget and provide any line item vetoes. Once the budget is signed into law, the District will work closely with the County to implement the new budget requirements and provisions.

The District has taken the conservative approach in terms of developing the budget for Fiscal Year 2019-20 and the two subsequent years, to reflect all expected unrestricted and restricted revenue and expenditure assumptions. Certain assumptions taken into account in developing the budget may or may not materialize. Assumptions are based upon Governor Newsom's "May Revise" budget assumptions, as well as analyses concerning local issues such as student enrollment and class size. All assumptions reflect the best information known at the time of budget development. Per the County's direction, the District's projected revenues for 2019-20 through 2021-22 are based upon current LCFF information.

After the State adopts its budget, the District will have 45 days to revise its current year budget, if needed, based upon information from the State's adopted budget. The District revises its budget and multi-year projections twice during the fiscal year - at the interim reporting periods in December and March.

INTRODUCTION

Budget Compliance Issues

California law imposes multiple requirements on the budget of a school district. For example, the District must:

- Adopt its budget by June 30, regardless of whether the State has adopted its own budget.
- Provide budget projections over a three-year period;
- Maintain a balanced budget in each of the three projected years;
- Reserve a minimum of 3% of the current year's expenditures for economic uncertainty;
- Provide a specific accounting format to the State; and
- Meet established fiscal standards and criteria, and explain any variances or violations in writing to the Los Angeles County Office of Education, an oversight agency.

Certification Status

Culver City Unified School District is filing the 2019-2020 Adopted Budget with a Positive Certification. This budget report specifies that the District will meet the State required Reserve for Economic Uncertainties of 3% in Fiscal Years 2020-21 and 2021-22.

EXECUTIVE SUMMARY

Revenues

LCFF revenue reached full implementation in 2018-19. That is two years earlier than the anticipated full implementation target date set by the previous Governor. Going forward in 19-20, LCFF revenue will increase only by annual cost of living adjustments (COLA). State funding has decreased due to lack of one-time discretionary funds proposed. Local revenue has increased due to successful passage of the Measure "EE" parcel tax.

Expenditures

Salaries and benefits have increased to include step and column increases, additional staffing, and STRS and PERS employer contribution increases.

EXECUTIVE SUMMARY (continued)

Transfers In/Out

The District's transfer to the General Fund from the Special Reserve Fund for Capital Outlay Projects is estimated at \$1.4 million based upon actual funds received and allowable for transfer per the District's pass-through agreement.

Ending Fund Balance Components

The District's State required minimum reserve of 3% is projected to be \$2,467,854 for Fiscal Year 2019-20. The District's projected ending fund balance, including assigned and unassigned fund balance that exceeds the minimum, is \$3,586,270. The reserve balance exceeding the minimum will be utilized for the following purposes: increased employer contributions for STRS and PERS, loss of CTEIG funding, continued Common Core implementation, technology investments for student testing, and continued investment in compensation to hire and retain the best employees available. Therefore, the District believes the need for the excess reserve level above the minimum is substantiated.

Multi-Year Projection (MYP)

LCFF revenue in Fiscal Years 2020-21 and 2021-22 are projected based upon percentages provided by the Los Angeles County Office of Education.

Our enrollment is projected to decrease due to mainstreaming and inclusion of Special Education students. The LCFF formula is dynamic and changes each year based upon our ADA and enrollment.

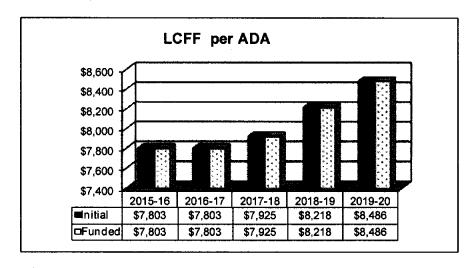

Increases in district-paid contributions for STRS and PERS have been incorporated into the MYP based upon the approved rate increases.

Annual step and column movement in each of the coming years will increase our operating budget and typically represents an increase of 1% to our ongoing salary expenditures.

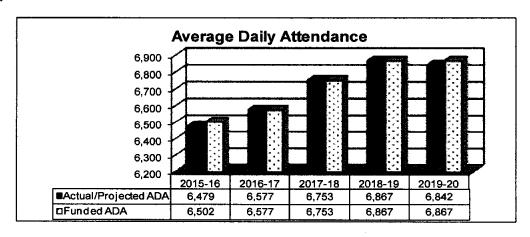

REVENUES

Average Daily Attendance (ADA) and LCFF per ADA

The major source of revenue to the school district is the Local Control Funding Formula (LCFF) apportionment calculated on a base revenue formula per unit of Average Daily Attendance (ADA). These revenues are based upon the District's ADA multiplied by the Base Grant per ADA. The calculation of these two factors provides the majority of unrestricted revenues to the District. The chart below shows the LCFF funding trend, plus it illustrates the initial LCFF apportionment provided by the State compared to the final funded LCFF apportionment.

The following table shows the year-over-year trend of Average Daily Attendance (ADA). Actual ADA for Fiscal Year 2019-20 is projected to be 6,842. There is a one year grace period built into funding for declining enrollment districts which means that the District will be funded at the higher of the prior year or current year ADA.

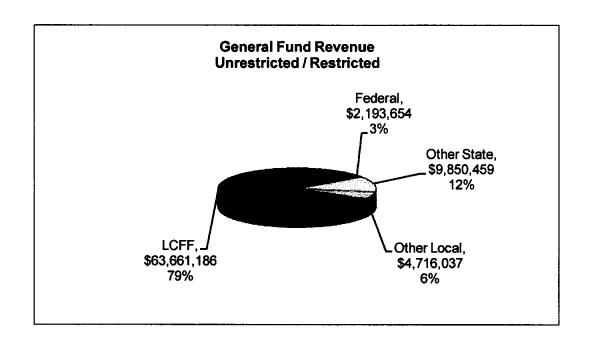

REVENUES

Summary of Revenues

Total revenues are projected to increase by \$2,265,459. The LCFF revenue funding is projected to increase by \$1,886,048 over the prior year. State revenue has decreased due to lack of one-time funds and categorical programs. Local revenue increased due to receipt of funds from the Measure "EE" parcel tax.

CULVER CITY UNIFIED SCHOOL DISTRICT 2019-20 Budget

BUDGET SUMMARY AND ASSUMPTIONS

KEY FINANCIAL ISSUES: 2019-20 AND BEYOND

The District will continue to monitor its budget and strive for a balanced budget due to economic uncertainty and the likelihood of a recession. The District must consider the short and long-term implications of any new ongoing commitment that will have an impact on the General Fund.

Collective Bargaining

The District's negotiations with the Culver City Federation of Teachers (CCFT), Association of Classified Employees (ACE) and Management Association of Culver City Schools (MACCS) remain open for fiscal year 2019-20.

Health and Welfare Costs

The cost of employee health care benefits continues to increase each year. All present indicators suggest this trend will continue for the foreseeable future. The District and its bargaining units must seek cost sharing, cost containment and cost reduction solutions that are fiscally responsible and mutually satisfactory.

Special Education Costs

Special Education costs can be difficult to control and have a high potential for rapid escalation. Satisfactory cost containment measures are vigorously pursued at every opportunity.

Unfunded Retiree Benefits

In 2000-01, the District discontinued pre-funding retiree long-term obligations in order to provide salary increases to employee groups. At that time, the Retiree Fund had a balance of \$1,554,465. The Retiree Fund is now closed and the General Fund is responsible for paying the entire portion of retiree lifetime benefits. Paying the costs of promised retiree benefits on a "pay-as-you-go" basis will continue to compete for current year dollars which, in turn, has an immediate impact on the amount of funding available for active employees and programs.

IMPACT OF SELPA ON SACS REPORTS

As the lead agency of the Tri-City SELPA, the District's Fund 01 SACS reports include SELPA revenues of \$2,005,859 and expenses of \$2,049,232. The following chart identifies the amount of money allocated to both the District's and the SELPA's operating funds.

Starting in 2011-2012, all pass-through revenues related to the Tri-City SELPA have been reported in Fund 10.0. Only administrative costs and related revenue are reflected in CCUSD's General Fund.

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool.

Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

DATA ENTRY: Enter data in the Enrollment, Budget, column for all fiscal years and in the Enrollment, CBEDS Actual column for the First Prior Year; all other data are extracted or calculated. CBEDS Actual enrollment data preloaded in the District Regular lines will include both District Regular and Charter School enrollment. Districts will need to adjust the District Regular enrollment lines and the Charter School enrollment lines accordingly. Enter district regular enrollment and charter school enrollment corresponding to financial data reported in the General Fund, only, for all fiscal years.

8C. Comparison of District Deficit Spending to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Unrestricted deficit spending has exceeded the standard percentage levels for two or more of the previous three fiscal years. Provide reasons for the deficit spending, a description of the methods and assumptions used in balancing the unrestricted budgets, and what change, if any, will be made to ensure that the subsequent budgets are balanced within the standard.

Explanation: (required if NOT met) Deficit spending due to salary schedule increases and increases to employer contributions for STRS and PERS. District is in the process of balancing the budget and expects to have a balanced budget no later than fiscal year 2020-21.

9. CRITERION: Fund Balance

S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized at budget adoption, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the district governing board and superintendent.
