

HEALTH EXAMINATIONS

The principal or designee at each school shall notify parents/guardians of the rights of students and parents/guardians related to health examinations. (Education Code 48980; 20 USC 1232h)
(cf. 5141.32 - Health Screening for School Entry)
(cf. 5145.6 - Parental Notifications)

A parent/guardian may annually file a written statement with the principal withholding consent to the physical examination of his/her child. Any such student shall be exempt from any physical examination but shall be subject to exclusion from attendance when contagious or infectious disease is reasonably suspected. (Education Code 49451; 20 USC 1232h)

(cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.22 - Infectious Diseases)
(cf. 5141.32 – Health Screening for School Entry)

Vision and Hearing Tests

Students shall have their vision and hearing tested by qualified personnel authorized by the district. (Education Code 49452, 49454)

All students shall be tested for hearing and visual acuity when they first enroll in school and in grades K, 2, 5, 7 and 10. Gross external observations of the student's eyes, visual performance and perception shall be made by the school nurse and the classroom teacher. (Education Code 49455)

For male students, color vision shall be tested one time, during grade 1. Results of the test shall be entered into the student's health record. (Education Code 49455)

Evaluation of a student's vision may be waived at the parent/guardian's written request or if the parent/guardian presents a certificate from an authorized health care provider specifying the results of an examination of the student's vision including visual acuity, and, in male students, color vision.
(Education Code 49455)

Visual defects or any other defects found as a result of the vision examination shall be reported to the parent/guardian with a request that remedial action be taken to correct or cure the defect. The report of the visual defect, if made in writing, shall be made on a form prescribed by the Superintendent or designee. (Education Code 49456)

HEALTH EXAMINATIONS (Continued)

Such reports shall not include a referral to any private practitioner. However, the student may be referred to a public clinic or diagnostic and treatment center operated by a public hospital or by the state, county or city department of public health.
(Education Code 49456)

Scoliosis Screening

Each female student in grade 7 and each male student in grade 8 shall be screened for scoliosis. This screening shall comply with California Department of Education (CDE) standards and shall be performed by qualified personnel as specified in law. (Education Code 49452.5)

Persons performing the screening shall not solicit, encourage or advise treatment of the student for scoliosis or any other condition discovered in the course of the screening.
(Education Code 49452.5)

The parent/guardian of any student suspected of having scoliosis shall receive a notice which includes an explanation of scoliosis and describes the significance of treatment at an early age. This notice shall also describe the public services available for treatment and include a referral to appropriate community resources. (Education Code 49452.5)

Type 2 Diabetes Information

Because type 2 diabetes in children is a preventable and treatable disease, parents/guardians are encouraged to have their child screened by an authorized health care practitioner for risk factors of the disease, including excess weight, and to request tests of their child's blood glucose to determine if he/she has diabetes or pre-diabetes.
(cf. – 5030 Student Wellness)

The Superintendent or designee shall provide parents/guardians of incoming 7th grade students with an information sheet regarding type 2 diabetes. The information sheet complies with the CDE standard and includes a description of the disease and a recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes be screened for the disease. It includes a description of the different types of diabetes screening tests available and a description of treatments and prevention methods (Education Code 49452.7)

Oral Health Assessment

A student, while enrolled in kindergarten in a public school, or while enrolled in first grade in a public school if the student was not previously enrolled in kindergarten in a public school, no later than May 31 of the school year, shall present proof of having received an

HEALTH EXAMINATIONS (Continued)

oral health assessment by a licensed dentist, or other licensed or registered dental health professional operating within his or her scope of practice, that was performed no earlier than 12 months prior to the date of the initial enrollment of the student. (Education Code 49452.8)

The parent or legal guardian of a student may be excused from complying by indicating the reason why an assessment could not be completed. (Education Code 49452.8(b) and (d)(2)).

The Superintendent or designee may provide information to parents/guardians regarding public or private sources from which they may receive diabetes screening and education services for free or at reduced costs.
